The Client:

United States based entrepreneur.

The Problem:

Lack of a moderated and secure reporting tool for teachers.

Our Analysis:

We analysed the need of the industry and found the following avenues to improve upon

- No common or unified platform.
- Lack of competitive analysis for the end user

Our Solution:

- The Teacher panel:
 - Eliminate the manual procedure.
 - Student details can be entered such as age, sex, subjects, special considerations, marks earned, and schedule.
 - The teacher can generate a report of the progress of the child as time passes and data is kept up to date
 - Report generation is linked to PayPal and payments are made according to the packages available.
- The Admin panel:
 - Ability to access the number of registered users.
 - Google analytics has been incorporated in order to keep the client aware as the current status and user trends.
 - Control over teacher membership.
 - Various packages have been incorporated in order to monetize the application for the client.
