The Client:

Australia based entrepreneur.

The Need:

Create an engaging and fun FACIAL YOGA application to detect the users facial features and train them to turn back the clock.

Our Analysis:

We analysed the need of the industry and found the following avenues to improve upon

- No application catering to this market.
- The Yoga techniques used.
- The audio instructions database.

Our Solution:

- We used Xcode and JAVA to create a simple and smooth interface.
- Integrated the client's database into the application.
- The phone camera was integrated to be controlled within the application
